

MT.SPEED

HYBRID EXTENSION
FOR YOUR ROBOT

The MT.SPEED is an optional module for the MT.XL. It works autonomously and offers the ability to a fast delivery of a selection of products (high runners) to your selling points.

IMMEDIATE MEDICATION DELIVERY

Because of the independent operation of the MT.SPEED-module, packages are delivered simultaneously from both MT.XL as the MT.Speed. Through the statistical rule 5/50: 5% of the stock generates 50% of sales, we offer the ideal combination: the MT.Speed for "fast runners" and the MT. XL for the rest of your stock.

STOCK MANAGEMENT

The MT.Speed channels are automatically filled through the MT.XL gripper.MT.SPEED is the only 'fast delivery'-module on the market which has an individual delivery detection for each product channel, which guarantees a 100% correct stock.

ARTIFICIAL INTELLIGENCE

The unique self-teaching program, allows the MT.Speed to anticipate in trends in your sales. Depending on the sales, stock in the channels will be fully autonomous and automatically adjusted. The software ensures that each channel is automatically recognized.

VOOR UW
ROBOT

CAPACITY AND DENSITY

The integration of horizontally mounted channels, ensures efficient volume management. The channels are available in nine different widths and ensure the most favorable filling gradation.

INTEGRATION

MT.Speed is smoothly integrated into the MT.XL-robot, taking into account personal needs and your pharmacy architecture.

DIMENSIONS

Fixed module width of 700 mm, integrable (freely selectable height integration) within the full length of the robot-MT.XL
 - Max. height 1000 mm per module
 Channel widths:
 30/40/50/60/70/80/100/120/150mm
 - The modules are extensible in time.

SPEED

Per channel 10 packages can be delivered to in 3 seconds. Each channel can be controlled simultaneously so the delivery rate can still increase exponentially.

CAPACITY

Max. 17 boxes per channel and up to 19 channels per module width (layer level)
 Average 11 channels per layer-level, which results in 285 boxes per layer on module width.

STOCK MANAGEMENT

The MT.Speed channels are automatically filled through the MT.XL gripper. MT.SPEED is the only 'fast delivery'-module on the market which has an individual delivery detection for each product channel, which guarantees a 100% correct stock.

ARTIFICIAL INTELLIGENCE

The unique self-teaching program, allows the MT.Speed to anticipate in trends in your sales. Depending on the sales, stock in the channels will be fully autonomous and automatically adjusted. The software ensures that each channel is automatically recognized.

CAPACITY AND DENSITY

The integration of horizontally mounted channels, ensures efficient volume management. The channels are available in nine different widths and ensure the most favorable filling gradation.
