

MT.VISION

Digital pharmacy communication

MT.VISION

Digital communication is a must, even in a pharmacy. Our digital touch screens are the perfect way to upgrade your communication and add that little something extra to your pharmacy interior or window.

The MT.VISION touch screens can be used as a digital OTC wall for interactive product explanations. Or how about a digital screen to showcase beautiful advertising videos for your over-the-counter products?

With our high-bright screens, your pharmacy window will attract the attention of every passerby and inform them about your opening hours, new products and promotions.

POWERED BY LOCHTING

MT.VISION is powered by our unified commerce garden, Lochting. It lets you combine all your offline & online sales tools in one easy-to-use software platform.

ADVANTAGES FOR YOUR PHARMACY

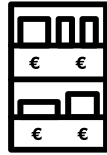

INTERACTIVE ADVICE

Give information about products to your clients by displaying your product range, pictures, explanation videos & product leaflets in an interactive manner.

ORDER FROM SCREEN

You can place a delivery exit next to the screen and ask for products directly from your robot.

DIGITAL PRODUCT WALL

Display all your products in a neat & attractive way. You will always have up-to-date prices & promotions thanks to the pharmacy database link.

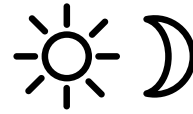

DIGITAL COMMUNICATION

Upgrade your digital communication by showing your clients your newest promotions, products, news and opening hours.

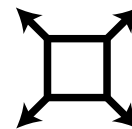

UPGRADED CLIENT EXPERIENCE

Your pharmacy will have a modern and innovative look. With your MT.VISION screens, you add that little something extra to your customer experience.

COMMUNICATE DAY & NIGHT

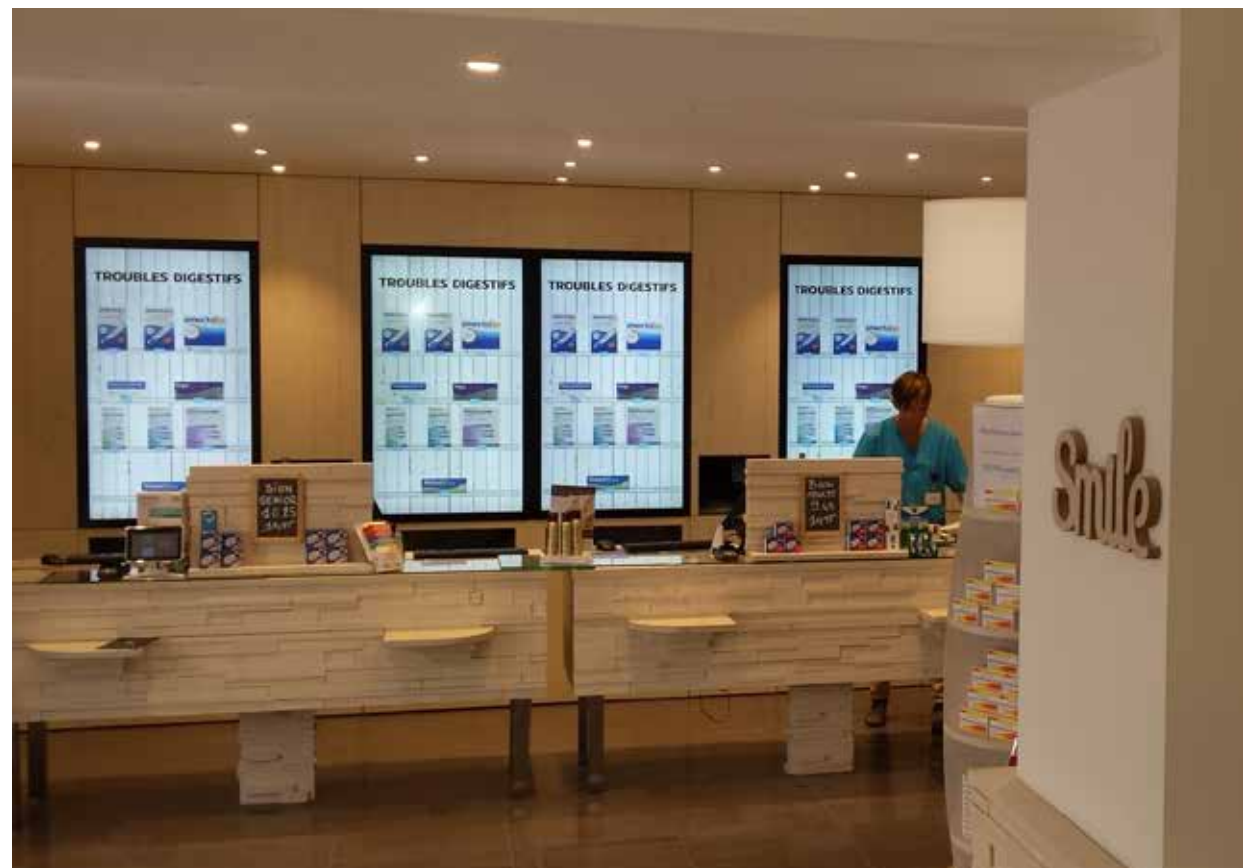

With our high-bright digital screens, your pharmacy window will get noticed by passersby during the day & night.

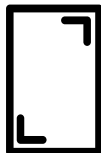

SAVE SPACE & STOCK

Our digital screens can display a beautiful product wall even when space is limited. You no longer need extra stock just to showcase in your pharmacy.

TECHNICAL INFORMATION

HIGH-QUALITY SCREENS

Our Full-HD screens are high-quality with layered glass and a touch layer. This prevents breakage & ensures optimal functioning.

LINKED WITH ROBOT

By linking your screen to your pharmacy robot, you can easily deliver products from the MT.VISION and have an accurate view of your available stock.

LINKED WITH PHARMACY SOFTWARE

Products that are shown on the MT.VISION are automatically adapted to show the right price, promotions and availability.

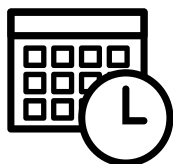

EASY-TO-USE

With our ready-made templates, large database of pictures and videos, your digital communication will attract the eye of every patient.

TOUCH SCREENS

All screens are provided with a touch layer.

SCREEN MANAGEMENT

It's possible to manage & sync multiple screens in multiple locations. No need for different passwords or multiple accounts.

DIFFERENT SIZES

The range of MT.VISION comes in different sizes to match your needs and pharmacy interior.

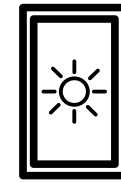

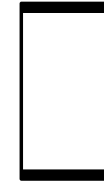

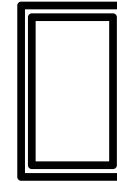

LOCHTING SOFTWARE

The unified commerce garden lochting brings all your online & offline sales tools together. Create beautiful advertising screens, adjust your product range, connect to your website...

FOR YOUR PEACE OF MIND

Meditech guides you in your journey of automating and digitalising your pharmacy. We develop and produce pharmacy robots, robot upgrades such as an automatic loading module, an ultrafast delivery module and digital solutions such as high-bright touchscreens and external service & sales modules.

We give you peace of mind through the quality of our products and our service.

We have a team of sales managers, project managers and service engineers to guide you from first meeting to installation and regular maintenance afterwards.

AFTER-SALES SERVICE 24/7

In order to build a long-term partnership, our service continues after the installation of our products.

Our dedicated service team of engineers is always ready to help you with any technical problem, no matter how small.

You can contact us day and night.
